

Release simcision 2.0

Now with even more features!

Newly designed Model management & with new features

1 Redesigned menu

Our new and tidy menu section on the left side will take you anywhere you want to go. Your account and team settings are just one click away.

2 Folder structure

Bring clarity to your model repository by creating any folders you like.

Your shared models and our examples can now also be found in the menu on the left.

3 Sorting function

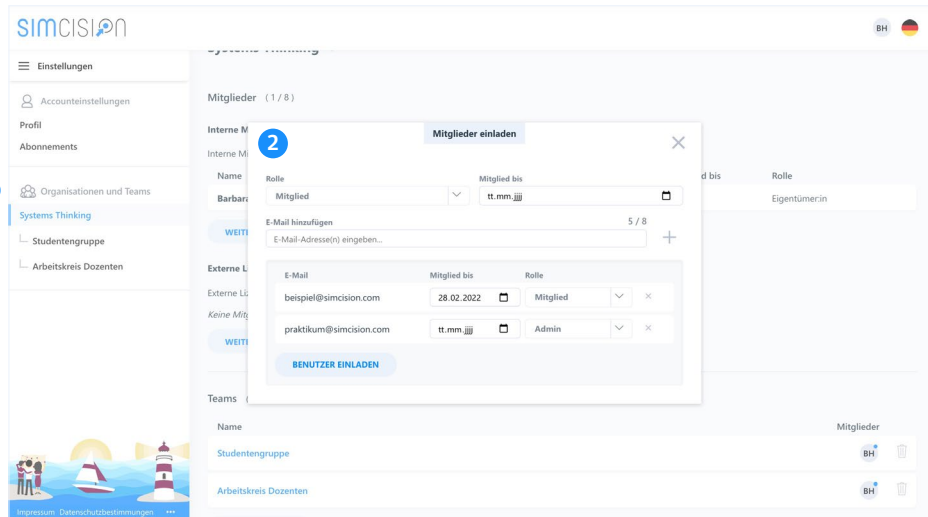

No more distinction between app and web: Use the sorting functions of the app now also in the web interface and manage your account in the app.

Release simcision 2.0

Now with even more features!

Adjustment of the license model

1

2

1 Organization & Teams

The Company and Education license will be replaced by the Organization.

An organization has team areas, which enable a common model repository of several users.

2 New admin interface

As an organization owner, it is now even easier for you to invite and manage members:

- ▶ Assign other users as admin
- ▶ Use email lists to assign multiple licenses at once
- ▶ Determine if and when membership should end automatically

We promise: Your license will stay as it is as long as you want it to!

You would like to update your current simcision license? Contact us, we will be happy to advise you!
